Introduction

About Our Sunday School

Our Sunday School is a Sunday school class at Stuart Heights Baptist Church in Hixson, Tennessee. We meet basically every week (dv), and we would love for you to visit.

Our purpose is to experience, know, and enjoy God—so we can make him known with our words and works. We take this seriously. It is our entire purpose, so everything we do is wrapped around this central tenet.

We focus on three basic practices:

- We study the Bible (engaging our heads with a substantive interaction with truth). This is orthodoxy, and our goal is to grow in lifelong learning.
- We pray for others (engaging our hearts with meaningful connection with believers). This is orthopathy, and our goal is to grow in lifelong connection.
- We serve others (engaging our hands with ministry training). This is orthopraxy, and our goal is to grow in lifelong service.

Our Bible study process in Our Sunday School is simple. We pray with others, hear with others, think with others, study with others, share with others, and invite others. I even wrote a small book about this process, *Toward a More Biblical Approach to Bible Study*—available online at OurSundaySchool.com and in print at Amazon.

About This Resource

This resource contains the material used by Our Sunday School to study the first part of **The Epistle to Philemon (Philemon)**. Additional audio and video resources associated with this book are available at OurSundaySchool.com. Additionally, this resource is part of a larger series of Our Sunday School resources—all of which are available at OurSundaySchool.com.

This tool is primarily for members of Our Sunday School and Stuart Heights Baptist Church. But if you find it outside of these, then I pray it helps you too.

Bible study can be overwhelming at first, but our Lord Jesus Christ tells us in **Mark 12:30** we are to **Love the Lord your God with all your heart, with all your soul, with all your mind, and with all your strength.**

To assist you in understanding how this document is laid out, a brief overview of the formatting is provided below.

Bold black text is the Nestle-Aland 28th edition (NA28) of the Greek New Testament (Novum Testamentum Graece, © 2012 Deutsche Bibelgesellschaft). This text serves as our primary source for Bible study.

Bold red text is from the Christian Standard Bible

Bold blue text are Bible references

The layout formatting is generally as follows (two words of **Philemon 1:1** are used as the example): the NA28, then the CSB, then the word-by-word analysis is shown in brackets for each word in the NA28. The word order for the CSB is used.

NA28

1 Παῦλος δέσμιος

CSB

1 Paul, a prisoner

Word-by-word analysis

Verse number **CSB text** [**NA28 text**; Strong's #: Strong's entry; *Strong's transliteration*; part of speech: morphological analysis; Strong's gloss; frequency in the NA28; frequency in **Philemon**] ... repeated for each word:

A few things to know about the formatting above:

- This is not new content. The CSB is used for the English text, the NA28 is used for the Greek text, Strong's Concordance is used for all the associated Strong's entries, and source code from CrossWire.org is used for the morphological analysis (using Robinson's Morphological Analysis Codes).
- This is a new view of existing content. After gathering and cross-checking the data, I regrouped, analyzed, and formatted the data in Excel and then pasted it into Word for additional formatting. The final output is this document.

Finally, space is left at the bottom of each page to document applications (what the point of the text is) and personalizations (what we are to do with those points).

This resource is not a commentary on **Philemon**. As such, if you get an opportunity to listen to the podcasts or view the videos associated with this series, you will hear me (primarily, but not exclusively) refer to the following commentaries. I suggest you consider purchasing and engaging with them. Each brings a different perspective and focus.

I hope this resource assists in enabling you to better understand this epistle. As errors are found, please let me know so I can correct them. Feel free to contact me at jim314@yahoo.com with edits, questions, or feedback.

To paraphrase a tweet from CityAlight, I pray this resource might join the many thousands of resources written throughout history to encourage the church, and when it has played its part, to make way for the next.

Cheat Sheet for Greek Verbs

Summarized and adapted from Corey Keating (ntgreek.org) and Strong's Concordance

A Greek verb can have a person, number, tense, voice, and mood.

Person (the form of the verb, which will agree with its subject)

- First: the person speaking
- Second: the person being spoken to
- Third: the person/thing being spoken of or about

Number (the reference of the verb, which will agree with its subject)

- Singular: referencing one
- Plural: referencing more than one

Tense (the time and kind of action of the verb from the perspective of the speaker)

- Present: right-now continuous action
- Aorist: occurrence without regard for time (undefined action), usually in the past
- Imperfect: regular or continuous ongoing action usually in the past
- Perfect: completed action with the effects felt in the present
- Future: anticipated action
- Pluperfect: completed action with the effects no longer felt in the present
- Future perfect: uncompleted action in the present, but completed in the future

Voice (the performer of the verb)

- Active: the subject performs the action
 - Passive: the subject receives the action
 - Middle: the subject performs the action in a way that affects the subject
- Deponent: a verb that is middle or passive in form, but active in meaning

Mood (the relationship to reality of the verb, from the perspective of the subject)

- Indicative: statement of fact
- Imperative: command (or entreat when the subject is God)
- Subjunctive: probability, possibility, exhortation, or self-evident
- Optative: possibility (more remotely possible than subjunctive)
- Participle: verbal adjective—the word plus “ing”
- Infinitive: verbal noun—“to” plus the word

Cheat Sheet for Greek Nouns

Summarized and adapted from William D. Mounce's *Basics of Biblical Greek*

A Greek noun has a number, gender, and case.

Number (the reference of the noun)

- Singular: referencing one
- Plural: referencing more than one

Gender (the grammatical gender of the noun)

- Masculine: masculine gender
- Feminine: feminine gender
- Neuter: neuter gender

Case (the function the noun performs in the sentence)

- Nominative: the subject of the sentence
- Accusative: the direct object of the sentence
- Genitive: can indicate possession (i.e., 's or "of")
- Dative: can indicate the ideas "to" (indirect object), "in," and "with"
- Vocative: the case of direct address

Note that Greek nouns also have a declension, but this only affects the case, not the meaning, so it is not addressed in this resource.

Greek adjectives follow the same morphology as Greek nouns, so the cheat sheet above applies to Greek adjectives as well.

Cheat Sheet for Greek Prepositions

Adapted from Dana and Mantey, *A Manual Grammar of the Greek New Testament*, William D. Mounce's *Basics of Biblical Greek*, and Mount Vernon Grace Brethren Church

A Greek preposition indicates the relationship between two words. For most prepositions, the preposition circle below visually represents their spatial relationships.

For some prepositions, the meaning of a preposition can depend upon the case of its object. The table below summarizes those scenarios.

Preposition	Genitive (away from)	Dative (at rest)	Accusative (motion)
διὰ	instead of, for	beside, in the presence of

πρός	the side of	by the side of, near to	the place, time, occasion, or respect
ὑπὲρ	above, in behalf of		superior to, more than
ὑπό	beneath, by		

Finally, there are non-spatial prepositions:
